SAFETY DATA SHEET

A-05E

Section 1. Identification

GHS product identifier : Plugs and cones, Mounted points, Dressing stones, Bench grinding wheels

Product code : 12-C (101,111,121,401,421,301,302,311,321,201,202,211,221)
12-D (002,012,017,022,032,037,057,077,092,102,117,122,232,
242,272,562,572,592,652,677,712,722,732,752,782,797,807,822,842)
12-D (001,011,016,021,031,036,056,076,091,101,116,121,231,241,
261,271,561,571,591,651,676,711,721,731,751,781,796,806,821,841)
12-D (003,013,018,023,033,038,058,078,118,123,243,273,563,593,653,
678,713,723,733,783,798,808,843,900,901)
12-E (324,325,328,344,345,348,444,447,454,457,533,537,543,545,547,
553,557,643,647,653,657)
12-E (329,449,459,539,549,559,649)

SDS no. : A-05E
Product type : Solid.
Section 1. Identification

Relevant identified uses of the substance or mixture and uses advised against
Identified uses : Grinding with Bench grinder or straight grinder.
Manufacturer    : Walter Surface Technologies Inc.

Supplier's details : 5977 Trans Canada Highway West
                      Pointe-Claire, Quebec
                      H9R 1C1
                      Phone: 514-630-2800
                      Toll Free: 1-800-363-7368
                      Fax: 514-630-2825

Emergency telephone number (with hours of operation) : CANUTEC (Canadian Transport Emergency Centre), (613) 996-6666,
                                                      24 hours / 7 days

Section 2. Hazards identification

OSHA/HCS status : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture : Not classified.

This product is an Article under the United States Hazard Communication systems and WHMIS 2015. Therefore it is EXEMPTED from the regulatory requirements under HCS and WHMIS 2015.

GHS label elements
Signal word : No signal word.
Hazard statements : No known significant effects or critical hazards.

Precautionary statements
Prevention : Not applicable.
Response : Not applicable.
Storage : Not applicable.
Disposal : Not applicable.
Hazard not otherwise classified : None known.
Section 3. Composition/information on ingredients

Substance/mixture : Mixture
Product code      : 12-C (101,111,121,401,421,301,302,311,321,201,202,211,221)
                   12-D (002,012,017,022,032,037,057,077,092,102,117,122,232,
                   242,272,562,572,592,652,677,712,722,732,752,782,797,807,822,842)
                   12-D (001,011,016,021,031,036,056,076,091,101,116,121,231,241,
                   261,271,561,571,591,651,676,711,721,731,751,781,796,806,821,841)
                   12-D (003,013,018,023,033,038,058,078,118,123,243,273,563,593,653,

United States: The exact percentage (concentration) in the composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.
Canada: The exact percentage (concentration) in the composition has been withheld as a trade secret in accordance with the amended HPR as of April 2018.
Section 3. Composition/information on ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

- **Eye contact**: Not a likely route of exposure.
- **Inhalation**: Not a likely route of exposure.
- **Skin contact**: Flush contaminated skin with plenty of water. Get medical attention if symptoms occur.
- **Ingestion**: Not a likely route of exposure. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

**Potential acute health effects**

- **Eye contact**: No known significant effects or critical hazards.
- **Inhalation**: No known significant effects or critical hazards.
- **Skin contact**: No known significant effects or critical hazards.
- **Ingestion**: No known significant effects or critical hazards.

**Over-exposure signs/symptoms**

- **Eye contact**: No known significant effects or critical hazards.
- **Inhalation**: No known significant effects or critical hazards.
- **Skin contact**: No known significant effects or critical hazards.
- **Ingestion**: No known significant effects or critical hazards.

**Indication of immediate medical attention and special treatment needed, if necessary**

- **Notes to physician**: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- **Specific treatments**: No specific treatment.
- **Protection of first-aiders**: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

**Extinguishing media**

- **Suitable extinguishing media**: Use an extinguishing agent suitable for the surrounding fire.
- **Unsuitable extinguishing media**: None known.

**Specific hazards arising from the chemical**

- **Hazardous thermal decomposition products**: No specific fire or explosion hazard.

Decomposition products may include the following materials:
- carbon dioxide
- carbon monoxide
- sulfur oxides
- halogenated compounds
- metal oxide/oxides
Section 5. Fire-fighting measures

Special protective actions for fire-fighters: No special measures are required.
Special protective equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
For non-emergency personnel: No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering.
For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions: N/A, solid material

Methods and materials for containment and cleaning up
Small spill: N/A, solid material
Large spill: N/A, solid material

Section 7. Handling and storage

Precautions for safe handling
Protective measures: Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures. Remove contaminated clothing and protective equipment before entering eating areas.

Conditions for safe storage, including any incompatibilities: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

**Appropriate engineering controls**: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Environmental exposure controls**: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

**Individual protection measures**

**Hygiene measures**: Follow good industrial hygiene practice.

**Eye/face protection**: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

**Skin protection**

**Hand protection**: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Body protection**: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection**: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection**: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

**Appearance**

**Physical state**: Solid.

**Color**: Variable.

**Odor**: None.

**Odor threshold**: Not applicable.

**pH**: Not applicable.

**Melting point**: Not available.

**Boiling point**: Not available.

**Flash point**: Not applicable.

**Evaporation rate**: Not applicable.

**Flammability (solid, gas)**: Not available.

**Lower and upper explosive (flammable) limits**: Not applicable.

**Vapor pressure**: Not available.

**Vapor density**: Not available.
Section 9. Physical and chemical properties

Relative density: Not available.
Solubility: Not available.
Partition coefficient: n-octanol/water: Not applicable.
Auto-ignition temperature: Not available.
Decomposition temperature: Not available.
Viscosity: Not applicable.
Flow time (ISO 2431): Not available.
VOC content (g/l): 20 % (w/w)

Section 10. Stability and reactivity

Reactivity: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability: The product is stable.
Possibility of hazardous reactions: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid: No specific data.
Incompatible materials: Reactive or incompatible with the following materials: oxidizing materials and acids.
Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Other adverse effects: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

**State regulations**

**Massachusetts**: The following components are listed: Aluminium oxide; Silicon carbide; Phenol; Glass, oxide, chemicals; Talc; Crystalline silica; Sulfur

**New York**: The following components are listed: Phenol

**New Jersey**: The following components are listed: Aluminium oxide; Silicon carbide; Phenol; Kaolin; Talc; Crystalline silica; Sulfur

**Pennsylvania**: The following components are listed: Aluminium oxide; Silicon carbide; Phenol; Kaolin; Talc; Crystalline silica; Sulfur

**California Prop. 65**

⚠️ WARNING: This product can expose you to Crystalline silica, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

**Canada**

**Canadian lists**

**Canadian NPRI**: The following components are listed: Phenol

**CEPA Toxic substances**: None of the components are listed.

**Canada inventory (DSL NDSL)**: At least one component is not listed in DSL but all such components are listed in NDSL.

**International lists**
Section 15. Regulatory information

National inventory
- Europe: All components are listed or exempted.
- New Zealand: All components are listed or exempted.
- Republic of Korea: All components are listed or exempted.
- Taiwan: All components are listed or exempted.
