SAFETY DATA SHEET
A-10E

Section 1: Identification

GHS identifier : Felt, High Polish

Product CODE : 04-T Twist Felt Discs (204; 304)

07-T Quick Step Felt Discs (450; 600; 700)

07-T Quick Step High Polish Discs (454; 504; 604; 704)

07-T Felt Drum Belt (530)

07-T High Polish Drum Belt (334; 534)

07-T Buffing Drum (425; 427)

07-T T-Lock Polishing Felt Belt (225)

07-T Felt Cup Disc (505)

07-T Rail-Mate High polish belt (220)

07-T Felt wheel (602)

SDS No : A-10E

Product types : Felt and High Polish

Identified Uses : Linear finishing, circular finishing, Twist finishing system

Manufacturer : Walter Surface Technologies Inc.
5977 Trans Canada Highway West
Pointe-Claire, Quebec
H9R 1C1
Phone: 514-630-2800
Toll Free: 1-800-363-7368
Fax: 514-630-2825

Emergency telephone number

CANUTEC (Canadian Transport Emergency Centre), (613) 996-6666,
24 hours / 7 days
Section 2 : Hazards Identification

OSHA/HCS Status : While this material is not considered hazardous by the OHSA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification : Not classified

GHS Label Element

Signal Word : No signal word

Hazard Statement : No known significant effects or critical hazards

Precautionary Statements

General : Read Safety Data Sheet before use. Keep out of reach of children.

Prevention : Not applicable.

Response : Not applicable.

Storage : Not applicable.

Disposal : Not applicable.

Hazard Not Otherwise Classified : None known

Section 3: Ingredients and composition of product

Hazardous Ingredients : The Walter Surface Technologies brushes don’t have hazardous ingredient. In addition, the greatest part of the projected dust during the work comes from the work piece and not from the brush.
Section 4: First Aid Measures

**Description of necessary first aid measures**

**Inhalation**: Not applicable

**Skin Contact**: Not applicable

**Eyes Contact**: Flush the contaminated eye(s) with large amounts of clean water for 5 minutes while holding the eyelid(s) open. Do not remove embedded objects. Continue rinsing. Consult physician if necessary.

**Ingestion**: Not applicable

**Others**: Not applicable

**Most important symptoms and effects, both acute and delayed**

**Potential acute health effects**

- **Inhalation**: No known significant effects or critical hazards
- **Skin Contact**: No known significant effects or critical hazards
- **Eyes Contact**: No known significant effects or critical hazards
- **Ingestion**: No known significant effects or critical hazards

**Over-exposure signs/symptoms**

- **Inhalation**: No known significant effects or critical hazards
- **Skin Contact**: No known significant effects or critical hazards
- **Eyes Contact**: No known significant effects or critical hazards
- **Ingestion**: No known significant effects or critical hazards

**Indication of any immediate medical attention and special treatment needed**

None

Section 5: Fire-Fighting Measures

**Extinguish Media**

- **Suitable extinguish Media**: Not applicable
- **Unsuitable extinguish Media**: None Known
- **Hazardous thermal decomposition products**: Not applicable
- **Special protective actions for fire-fighter**: No special measures are required.
Section 6: Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**

For non-emergency personnel : Not applicable

For emergency responders : Not applicable

Environmental precautions : Not applicable

**Methods and materials for containment and cleaning up**

Not applicable

Section 7: Handling and Storage

**Precautions for safe handling** : Follow safety standards for polishing

**Precautions for safe storage** : There is no special storage requirement

Section 8: Exposure Control & Personal Protection

**Control parameters**

**Occupational exposure limit** : Not applicable

**Appropriate engineer control** : General ventilation is usually adequate to evacuate the dust from the working area. With good ventilation, the exposure of every ingredient should be below the limit. Make sure all the equipment is in good condition.

**Individual Personal Protection**

**Eyes Protection** : Wear protective goggles with safe shields.

**Hand Protection** : Wear Gloves.

**Skin Protection** : Wear long clothes. Smock is recommended.

**Respiratory Protection** : None

**Hearing Protection** : Ear protection is recommended.
Section 9: Physical & Chemical Properties

Appearance

Physical state : Solid

Appearance : Soft cloth

Odour : Not available

Boiling Point : Not available

Freezing Point : Not available

Specific Gravity : Not available

pH : Not available

Vapour Pressure : Not available

Evaporation : Not available

Flashpoint : Not available

Auto ignition temperature : Not available

Sensitivity to mechanical : Not available

Section 10: Stability & Reactivity

Reactivity : No reactive condition known

Chemical Stability : This product is stable

Possibility to Hazardous Reaction : None known

Conditions to avoid : None known

Incompatible Material : None known

Hazardous decomposition products: Under normal conditions of use, hazardous decomposition products should not be produced.
Section 11: Toxicology

Information on toxicological effects

Acute Toxicity : Not applicable
Irritation/Corrosion : Not applicable
Sensitization : Not applicable
Carcinogenicity : Not applicable
Reproductive Toxicity : Not applicable

Specific target organ toxicity - Single exposure: Not applicable
Specific target organ toxicity - Repeated exposure: Not applicable
Aspiration Hazard : Not applicable

Information on the likely routes of exposure: Eye contact

Potential acute health effects

Inhalation : No known significant effects or critical hazards
Skin Contact : No known significant effects or critical hazards
Eyes Contact : No known significant effects or critical hazards
Ingestion : No known significant effects or critical hazards

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation : No known significant effects or critical hazards
Skin Contact : No known significant effects or critical hazards
Eyes Contact : No known significant effects or critical hazards
Ingestion : No known significant effects or critical hazards

Short term exposure

Potential immediate effect: No known significant effects or critical hazards
Potential delayed effect: No known significant effects or critical hazards

Long term exposure

Potential immediate effect: No known significant effects or critical hazards
Potential delayed effect: No known significant effects or critical hazards
Potential Chronic Health Effects

General: No known significant effects or critical hazards
Carcinogenicity: No known significant effects or critical hazards
Mutagenicity: No known significant effects or critical hazards
Teratogenicity: No known significant effects or critical hazards
Developmental Effects: No known significant effects or critical hazards
Fertility Effects: No known significant effects or critical hazards

Section 12: Ecological Information

Toxicity

Aquatic Toxicity: No known significant effects or critical hazards.

Persistence and degradability: No known significant effects or critical hazards.
Bioaccumulation potential: No known significant effects or critical hazards.
Mobility in soil: No known significant effects or critical hazards.
Other adverse effects: No known significant effects or critical hazards.

Section 13: Disposal Considerations

Disposal methods: Dispose as per local, regional, national and international regulations.

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

EPA Hazardous Waste Number (RCRA): Not regulated
